

AMERICA, GUNS AND FREEDOM

A JOURNEY INTO POLITICS AND THE PUBLIC HEALTH & GUN CONTROL MOVEMENTS

BY MIGUEL A. FARIA, JR., M.D.

America, Guns, and Freedom outlines why the Second Amendment and armed self-defense are still needed in modern society, debunks the arguments that the U.S. should follow the path of European social democracies by enforcing draconian gun control, and expounds on how civilian disarmament in Australia and Great Britain, despite media hype, has not decreased violent crime in those countries. In *America, Guns, and Freedom*, the author warns us of the five essential ingredients

required for the creation and sustenance of tyrannical governments, one of which has been civilian disarmament via gun registration followed by gun bans and confiscation. Faria discusses mass shooting incidents and the role of mental illness. Special attention is given to the problem of how media sensationalism may encourage deranged individuals and madmen to become mass shooters seeking celebrity status, even in death. While gun control advocates decry America's "gun culture," Faria informs us of the significant role

that this "gun culture" played in saving England during World War II. American traditions have been and remain beacons of liberty, and this is most evident in *America, Guns, and Freedom*. Totalitarian governments that deny their citizens the right to keep and bear arms are a threat to life, liberty, property, and the pursuit of happiness. **CRPA**

CALIFORNIA GUN LAWS

A GUIDE TO STATE AND FEDERAL FIREARM REGULATIONS

BY C.D. MICHEL
& MATTHEW D. CUBEIRO

California Gun Laws: A Guide to State and Federal Firearm Regulations is said to be the bible and definitive source for information on the subject. This tremendous resource is jam-packed with thousands of hours of legal research, all of which has been transcribed into a format that is easy to read and comprehend. Chock-full of legal and practical insights drawn from decades of experience, this book is a must-have for any California gun owner.

The 2023 10th Edition is perhaps our greatest undertaking yet. Following the highly anticipated ruling in *New York State Rifle & Pistol Associa-*

tion v. Bruen from the United States Supreme Court, a flurry of lawsuits have been filed challenging California's arbitrary and unconstitutional gun laws.

But anti-gun politicians are not letting the Supreme Court's deci-

sion stand in their way of enacting legislative and regulatory changes—nearly all of which are also being challenged. Core among these is the recent changes to federal regulations for the definition of a firearm and a frame/receiver. And in California, over a dozen new anti-gun bills were signed into law that are addressed in the 10th Edition, including:

■ **Senate Bill No. 1327**, which creates a private right of action against any person who manufactures, distributes, transports, imports, sells, gives, or lends any firearm lacking a serial number, any “assault weapon,” any .50 BMG rifle, or any firearm precursor part under certain circumstances.

■ **Assembly Bill No. 2571**, which prohibits the advertising or marketing of any firearm-related product in a way that is designed, intended, or reasonably appears to be attractive to minors.
